

Safety Data Sheet

1. Identification of the material and Supplier

Product name: Cream Filler, 45ml, color: various

Synonymous Names: Gilt cream, gilding wax, gilders wax

Product Code: UPC codes prefix 067802177xxxx

Relevant uses: Coloring/embellishing of wood, paper, leather, etc.

Supplier: WoodWorld of Texas, LLC

13650 TI Blvd

Dallas, TX 75243

PH: 972-669-9130

2. Hazards Identification

Classification of the substance or mixture:

Hazards not otherwise classified: Combustible Dust.

Signal Word: Warning

Precautionary statements:

If medical advice is needed, have product container or label at hand.

Keep out of reach of children.

Read label before use.

Do not eat, drink or smoke when using this product.

Combustible Dust Hazard:

Combustible dust formations (in air) are possible during processing.

3. Composition/Information on Ingredients

Identification	Name	Classification	%
N/A	Proprietary wax blend		70-94.9%
64742-47-8	Hydro-modified light distillate (petroleum)		5-10%
N/A	Various inert pigments		0.1 to 20%

4. First Aid Measures

Emergency and first Aid Procedures:

Skin: Immediately begin washing the skin thoroughly with large amounts of water and mild soap; removing contaminated clothing. Seek medical attention if irritation persists.

Eyes: Immediately begin flushing eyes with water and remove contact lenses (if applicable). Continue to flush eyes with water for 15 minutes, then seek immediate medical attention.

Inhalation: While inhalation complications are very rare, get to fresh air if dizziness or difficulty breathing occurs. Get immediate medical attention if breathing difficulty persists.

Ingestion: If swallowed, do NOT induce vomiting. Seek immediate medical attention. Rinse mouth with water and take small sips of water afterward. Never give anything by mouth to an unconscious person.

5. Fire Fighting Measures

Product will not support combustion in standalone situation, however, degradation as a result of adjacent combustibles may produce irritating gases and vapors, as well as, releasing oxides of carbon and sulfur. Avoid breathing fumes associated with decomposition.

Flash Point: n/a

Explosive Limits: UEL: n/a LEL: n/a

Autoignition: no data available

Suitable Extinguishing Media: Non-combustible product. use extinguishing media for underlying cause of fire.

Unsuitable Extinguishing media: None known.

Fire Fighting Instructions: Self-contained respiratory protection should be provided to fire fighters fighting fires in buildings and confined areas. Storage containers should be kept wet and cool to prevent building of pressure.

Flammable Properties and Hazards: Flashpoint: No flash to boiling. this material does not exhibit a flashpoint per the Setaflash Closed Cup test method.

6. Accidental Release Measures

Personal Precautions: Use personal protective equipment. Ensure adequate ventilation.

Environmental Precautions: should not be released into environment

Methods for containment and Clean up: Avoid release into drains, waterways, etc. Collect spillage into containers that can be closed and handled in a sensible manner. Avoid dust formation should the material become dry and loose. Can be effectively cleaned up with water and mild detergent.

7. Handling and Storage

Precautions to be taken in Handling: As with all chemicals, handle with adequate ventilation. Do not use product while using or around smoking, eating or drinking. Avoid situation where product can become dry and subsequently dusty such that dangerous concentrations can become airborne. High concentrations of organic dusts/powders can become explosive.

Precautions to be taken in Storage: Store in a safe, dry, well ventilated location out of the reach of children. Assure that lid is fastened tightly when product is not in use.

8. Exposure Controls/Personal Protection

Respiratory Equipment: When used as directed, respiratory equipment should not be needed.

Eye Protection: Safety glasses should be worn at all times while handling product.

Protective gloves: Wear gloves with adequate resistance to chemicals being handled. glove selection should be determined by chemicals being handled, as well as, conditions under which they are handled. Consult glove manufacturer for optimum glove composition when using this product.

Other protective clothing: Various application methods will vary the level of protection to facilitate safe handling and to minimize exposure to product. Impermeable aprons and various other clothing can increase protection of skin to exposure of product.

Engineering Controls (ventilation): Use only with adequate ventilation to prevent build-up of vapors. Do not use in confined spaces; use outdoors or in open air areas. If you experience dizziness, or excessive fumes, discontinue use and move to a well ventilated area seeking fresh air.

Safe Handling Practices: Wash hands thoroughly after use and before eating, drinking, or smoking. do not eat, drink or smoke in the immediate work area. Discard clothing and/or protective equipment that has become contaminated with product.

9. Physical and Chemical Properties

Physical State	Solid, soft paste, various colors
Odor	Slightly sweet odor
Melting Point	50° C (122° F)
Boiling Point	Not calculated
Flash Point	n/a
Explosive Limits	LEL: n/a UEL: n/a
Density (g/ml)	1.05 - 1.50 (varies with color)
Evaporation Data	N/A
Solubility in Water	insoluble
VOC	negligible
HAPS	exempt

10. Stability and Reactivity

Reactive Hazard	No known reaction hazards
Stability	Completely stable below decomposition temperature
Conditions to Avoid	Avoid concentrated dust formation.
Incompatible Materials	Strong oxidizers
Hazardous Decomposition Products	Oxides of carbon, nitrogen and sulfur
Hazardous Reactions	None under normal use

11. Toxicological Information

No adverse health effects expected if product is handled in accordance with this Safety Data Sheet and the product label. Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:

Ingestion: Vomiting/nausea may occur if large amounts are ingested.

Eye Contact: Will irritate eyes if contact made.

Skin contact: May cause acute contact dermatitis in some people.

Inhalation: Inhalation of dust could irritate mucous membranes of the respiratory tract.

Long Term Effects: No known data.

Carcinogenicity : Not classifiable as a human carcinogen.

12. Ecological Information

Ecotoxicity: Avoid contaminating waterways

13. Disposal Considerations

Waste Disposal Methods: Dispose in accordance with local, state and federal regulations

14. Transport Information

DOT: Not regulated

TDG: Not regulated

IATA: Not regulated

IMDG/IMO: Not regulated

UN number: Not regulated

UN proper Shipping Name: Not regulated

Packing Group: Not regulated

15. Regulatory Information

United States (USA)

SARA Section 311/312 (Specific toxic chemical listings):

None of the ingredients is listed

SARA Section 313 (Specific toxic chemical listings):

None of the ingredients is listed

RCRA (hazardous waste code)

None of the ingredients is listed

TSCA (Toxic Substances control Act):

All ingredients are listed

Proposition 65 (California)

Chemicals known to cause cancer:

None of the ingredients are listed

Chemicals known to cause reproductive toxicity for females:

None of the ingredients are listed

Chemicals known to cause reproductive toxicity for males:

None of the ingredients are listed

Chemicals known to cause developmental toxicity:

None of the ingredients are listed

Canada**Canadian Domestic Substances List (DSL)**

All ingredients are listed

Canadian NPRI Ingredient Disclosure list (limit 0.1%)

None of the ingredients are listed

Canadian NPRI Ingredient disclosure list (limit 1%)

None of the ingredients are listed

Classified as non-hazardous substance.**16. Other Information**

Revision Date: 9-6-2015

Preparer Name: WoodWorld of Texas, LLC
